WORK EXPERIENCE

Availability
Experienced software Developer and Administrator with 3 years in Salesforce at Tata Consultancy Services. Currently **serving notice period** and available to join from August 23, 2025.

Salesforce Developer – (Sep 2022 to Oct 2023)
-   Worked as Salesforce Developer for a duration of 1 year, Contributing to the develop and customize application as per the client requirements. My responsibilities involve implementing and optimizing BPO through **Apex programming and Flow automation**.

Salesforce Administrator – (Oct 2023 – Aug 2025)
-   For 2 years, I worked as a Salesforce Administrator for Salesforce integrating with Onelink ERP Application. The application servers for maintaining payroll, billing component calculations.
-   Maintaining environments is a key focus, along with the management of smooth operation of processes. I have also performed **maintenance and deployments** on sandboxes and production environment.

Shell Scripting Automation
-   Along with Administration, I had been tasked to create **PowerShell and Bash automations** that have reduced the man hours required for daily sanity checks, weekly recycles, and reports generation.

PERSONAL PROJECTS

My Portfolio Website
Developed a responsive personal portfolio using **HTML, CSS, and JavaScript** to showcase technical skills and host web-based projects. Projects included below are linked into the portfolio for easy access and navigation.

- BMI Calculator -
Created a web-based Body Mass Index calculator using simple JavaScript and LWC concepts.

- Alarm Clock -
Built a digital alarm clock. Focused on DOM manipulation, event handling, and real-time time tracking.

- Currency Converter -
Designed a dynamic currency converter that fetches real-time exchange rates using a free currency API.

- Weather Display App -
Uses OpenWeatherMap API to display current weather conditions based on city name. Showcased skills in working with REST APIs, asynchronous JavaScript (fetch/async-await), and UI updates.

- Note Taking App -
Created a simple note-taking web app that allows users to write, edit, and delete notes stored as a Record. Demonstrated understanding of CRUD operations, client-side storage in Apex.

INTERESTS

Hobbies: Enjoy playing video games, listening to music, and regular gym workouts to maintain focus.
